

MTRAM Rostering

Clever Devices designs and develops breakthrough solutions for transit systems that are proven to increase efficiency and reduce operation costs while improving the passenger experience.

Managing and optimizing the assignment of work to your drivers, while ensuring rule adherence and labor law compliance, requires a robust solution. Additionally, a truly powerful tool must help schedulers manage the bidding process while considering driver availability. MTRAM Rostering automatically creates optimized driver rosters in accordance with time off requests, labor rules, and agency regulations.

FEATURES & BENEFITS

Create Balanced Work Assignments and Reduce Overtime

Using a dedicated algorithm, MTRAM Rostering takes into account labor rules and days off to create well-planned rosters that balances the workload among drivers and minimizes overtime.

Easily Manage Driver Rosters

MTRAM Rostering has been designed with an intuitive, easy to use graphical user interface that provides your schedulers with the flexibility needed to manage complex driver rosters.

Assign Uncovered Runs

MTRAM Rostering assigns uncovered or unassigned work to available drivers and to drivers willing to do overtime based on seniority.

Simultaneously Manage Various Work Parameters

MTRAM Rostering is capable of simultaneously managing various constraints such as labor contracts, union rules and personnel categories (i.e. extra board, full time, part time, seniority) to ensure that all criteria are carefully considered in the creation of your driver assignments.

Driver Qualification Adherence

Because MTRAM Rostering understands the skill sets and licenses required for each type of vehicle in your fleet as well as the credentials of each of your drivers, it will assist in creating a roster in accordance with the talent pool available.

Integration with Payroll Systems

The system automatically calculates the hours worked by your employees and generates a report that can integrate into any type of payroll system.

Personal Kiosk and Web-based Bidding

A dedicated kiosk lets your drivers interact with schedulers and management to perform a variety of tasks including: bidding on available work based on seniority, view daily and weekly work assignments, advise of willingness to perform overtime, request time off and view remaining vacation days.

MTRAM Rostering enables you to optimize rosters by respecting the complexity of your contracts and labor rules and provides mobile web-based bidding tools for your drivers.
