MAIOR
TRANSIT SCHEDULING SUITE

Simplify your planning, optimize your scheduling, address real-time service changes and control costs.

Modular
Choose the complete solutions or only the functionality you need.

Flexible
Tailored to your specific business needs and goals.

37,000 Vehicles
Managed by MAIOR around the world.

Modern
Web-based platform; on-premise or cloud-based.

35+ Years of Experience
Transit is all we do.

WHY CHOOSE MAIOR?
4 POWERFUL ALGORITHMS

01. Automatically generate trips that consider available vehicles, passenger counts and desired headways.

02. Automatically create a schedule that considers all deadheads, recovery times and interlining rules.

03. Cut vehicles blocks into the fewest driver runs necessary to deliver your desired service.

04. Balance the workload among your operators while minimizing overtime and controlling costs.

OUR OFFERING

Our modular solution has eight distinct functional areas. Implement the complete solution or only those that work for your agency.

Route Planning
Design your network

TimeTable Design
Plan your trips

Resource Optimization
Create your blocks, runs and optimized rosters

Operator Assignments
Manage your driver's work

Daily Management
Manage the unpredictable changes that occur every day

Run Time Analysis
Improve planning accuracy and on-time performance

Data Sharing
Integrate with other ITS systems

Business Intelligence
Make better decisions
